

# Product Control Analyst

## Sobre a empresa:

A Ebury é uma instituição financeira global, presente em mais de 20 países, oferecendo serviços de câmbio e de pagamentos internacionais.

As soluções de câmbio são integradas para que empresas possam pagar, receber, gerenciar riscos cambiais e seus fluxos de caixa no exterior – tudo em um só lugar.

Também oferecemos soluções cross-border, via APIs, que atendem de forma escalável diversas verticais digitais como: pagamentos (PSP), investimentos, e-commerce, B2B e agro.

## Your Responsibilities

- You will be responsible for controlling the revenue and banking streams of Ebury Bank under local GAAP, IFRS and management, including FX derivatives and TF portfolio, investments performance and others.
- You will be the local lead of the technological treasury accounting integration.
- Developing, implementing and managing a daily control over the P&L and balance sheet position of the company.
- Detecting, flagging and coordinating with other departments across the business potential correction actions.
- Document and control of processes facilitating the audit processes.
- Leading the local financial audit discussions.
- Developing, implementing and managing a daily control over the P&L and balance sheet position of the company.

## About You

- Team player, fast learner, able to multitask and prioritise workload appropriately. We are looking for an individual with drive and passion.
- Over 3 years experience working in the financial services industry in an auditing firm or as an accountant.
- High level in Microsoft Excel or GoogleSheet is a must.
- Flexibility with changing requirements in an evolving and fast-paced environment.
- Strong communication skills and an ability to build and leverage cross-functional relationships. High level of English.
